## PEARL DRUM ARTISTS

**FOR  
AN IN-  
STRUMENT  
CAPABLE OF  
EXPRESSING  
YOUR FINEST  
PERFORMANCE**

**..... ALWAYS SPECIFY  
*Pearl***

The Pearl drums are created with exacting care by people with experience, imagination and craftsmanship, in combination with the finest materials and up-to-date facilities. As a result, sound-development of the Pearl drums has seen further advanced, especially in the past year. Pearl's sound-research has come up with much new knowledge, and many of its conclusions have been incorporated in the production process. Pearl drums gained the reliance and the confidence of the many top drummers around the world today.

## PEARL DRUM COLOR FINISHES

• The Finishes available extra.

## PEARL EXCLUSIVE DRUM SHELL TYPES: WHAT'S THE DIFFERENCE?

• **"FIBER GLASS" SHELL (F)**  
The Pearl fiber glass drum shell, the newest and most sensational discovery in modern drum construction, is a nonporous, no aging, yet the strongest material impervious to moisture, and any normal abrasive action. It produces the most sensitive and brilliant sound with the perfect tonal response on all dynamics.

• **SEAMLESS "CRYSTAL" SHELL (TP)**  
Pearl's exclusive seamless transparent drum shell, ever manufactured in the world, is a new patent product constructed with the most advanced technical and hand-finished. With the durability and explosive quality the seamless Crystal Beat drum shell expands and develops a new tonal spectrum, and enhance the technical ability, the ultimate of performance.

• **"MAPLE" SHELL (M)**  
Layers of pure maple are laminated to form a rock hard shell which projects exceptionally well, soft warm and woody sound that last. The sound peculiar to the choice grade hard rock maple has the tonal characteristics equal to none. Lacquer finished inside for live sound.

• **"ARTIST" SHELL (FW)**  
The shell is a special design developed by Pearl craftsman of the exclusive processing techniques that enabled the woodshell laminated with fiber glass which permits greater internal vibratory response, thus providing one of the most sensitive and brilliant sounding instrument made today.

• **"PRESIDENT" SHELL (PH)**  
Layers of phenolic are hand wrapped around precision molds to produce a shell of uniform thickness. This process produces perfect circle shells of non-warping phenolic with exceptionally smooth inner surface for a new vibrancy in tone. The brilliant sound is alive, taking on new dimensions.

• **"DYAMIC" SHELL (W)**  
The Pearl advanced processing technique developed the new concept of dynamic wood shell finished inside with an exclusive lacquer for added resonance and response.

## DISTINCTIVE FEATURES

• **Tom-Tom Holder**  
Adjustable in height and to any angles, and positive locking system with simple adjustment.

• **Multiple Tom Holder Base**  
Designed for multiple use of Tom-Tom Holder and Melodic Tom Holder at a spot designation by the drummer. Sturdy fittings.

• **Pearl Exclusive Nylon Bushings:**  
Special care to protect the hardware from slipping, rattling or hanging at the set position. This is extremely important for smoother and quieter

• **Bass Drum Spurs**  
The easy push-pull release provides for a quick detachment of spurs. It assures a rigid control against bass drum movement.

• **Bass Drum Hoop (I)**  
Pearl inlaid, sturdy construction, and durable chrome-plated metal hoop with perfect, even tension.

• **Bass Drum Hoop (II)**  
Extremely strong President bass drum hoop fits to and helps project the wood sound of maple shells.

• **Die Cast Counter Hoop**  
Perfect sphere and fully flanged die cast counter hoop produces the most effective sound and the rim shot.

# SOUND VENTURE MK-II

The sound of drum on the stage ventures and leads the hard rock band and the big band to the most sophisticated versatility. The two bass drums coupled with the two floor tom-toms project the total art of the drummer.
