Masking Covers

The GK-90 and BBC-1 cover the holes of BT-3 and BB-3 brackets that have been removed.

GK-90

BBC-1 for BB-3, w/Gasket, Screws and Nuts
GK-90 for BT-3, inside/outside plates w/Bolts

Stainless Steel Tension Rods

Pearl's Stainless Steel Tension Rods are machined, not forged, from a single piece of stainless steel to the most exacting tolerances in the industry. They feature super-smooth, precise tensioning, with absolutely no play. Each non-plated stainless steel tension rod is matched with a precision-machined brass swivel nut for ultra-precise performance.

SST-5028/6 M5.8 x 28mm (6)
SST-5035/6 M5.8 x 35mm (6)
SST-5038/6 M5.8 x 38mm (6)

Practice Pads

Silencer Rubber Pads

RP-50
Our RP-50 features five rubber discs for silent practicing on drumsets with 12", 13", and 16" toms, and 14" snare drum. A universal-fit bass pad with adjustable straps is also included. They remove easily for resumption of live play.

RP-40C
Our RP-40C Cymbal Silencers effectively reduce the volume of cymbals for practicing. The set includes an 18"/20" cymbal pad, 14"/16" cymbal pad, and a pair for 14" hi-hats.

Bass Drum Pedal Training Pads

BD-10
The BD-10 bass pad is perfect for practicing at home or on the road. The wide pad accommodates double pedals and is specially formulated for extremely low noise and a realistic feel. The universal-fit "hoop" accepts all brands of pedals and adjusts to compensate for different floor surfaces. The BD-10 folds for compact transport.

Training Drum Pads

SD-50
The SD-50 features Pearl's unique rubber pad surface with realistic rebound and near silent performance. The stand and pad use heavy-duty 8mm threading for superior durability and stability.

Extreme Strength | Optimal Resonance | Superior Tone

Pearl's Superior Shell Technology utilizes a proprietary technique for achieving the ultimate air chamber. It begins with select woods chosen for their unique acoustic attributes, milled to precise thickness with overlapping scarf joint seams for a perfect air-tight fit. The wood plies are saturated with Pearl's proprietary "AcoustiGlue" that permeates every pore and dries to the exact consistency of the wood for optimum resonance. Finally the plies are formed in high-temperature molds with 1000 PSI of hydraulic pressure to produce perfect drum shells that exhibit superior tone, optimal resonance and extreme strength.

Scarf Joints

Our Scarf Joint seams provide 800% greater surface area than conventional butt joints. This provides extreme strength and integrity to the shell while simultaneously eliminating air pockets that can disrupt vibration, so the shells vibrate uniformly for superior resonance. Other companies use butt joints where the seams are simply butted together. A butt joint works if the ends meet exactly, but often they don't and a gap is formed. Within the gap is air which is an excellent insulator. Air stops sound. For example, recording studios are built with a room within a room with air separating the two to stop sound from interfering with recordings. This is great for studios but not for drums. As drummers we want drums to vibrate freely and evenly without air pockets to impede vibration. With S.S.T., our use of scarf joints ensures no gaps and no air pockets, so the shells vibrate fully and uniformly for superior resonance.

Proprietary "AcoustiGlue"

"AcoustiGlue" is Pearl's special proprietary adhesive that hardens within the shell to the same density as the wood it binds, thus allowing the shells to respond as if they were made from a single-ply of wood. During shell formation the hydraulic mold is heated and the glue is liter-

ally boiled into the pores of the wood to ensure complete adhesion. Simultaneously, 1000 PSI is applied for thorough bonding of the plies to create the finest drum shell in the world. No other system uses this perfect combination of heat and pressure to ensure a perfect drum shell with extreme strength and tonal character. Now we have a perfect, gapless air chamber. The shell is then trimmed and the ends squared to assure overall tuning consistency and head seal.

Bearing Edges

This critical step is another key component in the quality of our shells. Our standard edges feature a 45° angled bearing edge on the inner diameter with 45° backcut over the second ply from the outside of the shell for a highly focused contact point, providing outstanding balance between attack and resonance. Our Reference drums feature rounded 45° edges on 8" to 13" toms and fully rounded edges on drums 14" and larger for more head-to-shell contact area for maximum shell vibration and resonance.

A Brilliant Finish

Finally Pearl's signature finish is applied to the drum. Pearl's painting process matches beauty with durability. Whether it's a custom Masterworks finish, designed to your exact specifications, or the 31-step super high gloss finishes found on Reference and Masters Premium - your drums will look as good as they sound for years to come.

**"Hard Work and Passion...
A Little Luck... 20 Years
Together and The greatest
drums on the planet.
Me and Pearl. "**

Pearl's Superior Shell Technology Assures Manufacturing Excellence. Every Time.

No inferior butt seams here. These tapered scarf joints seamlessly overlap for perfect shell resonance and consistency. Our proprietary "AcoustiGlue" permeates the wood and hardens to the same consistency as the wood. The scarf joints are carefully staggered upon insertion of the specially designed mold. Extreme heat and over 1000 PSI pressure are simultaneously applied to the shell during formation. A perfect, gapless air chamber. The shell is then trimmed and the ends squared to assure overall tuning consistency and head seal. Our exclusive bearing edge incorporates a 45° out and 45° in, slightly rised from the exterior, to optimize contact with the flat portion of the drum head. Pearl's finishes are the industry state-of-the-art. Your choice of finish is encased in layers of highly durable urethane and polished to a high luster. Truly a work of art.

Omar Hakim
Studio Legend

"What's really great about Pearl is that they make all their drumsets. They don't outsource to another company. Every series is manufactured by the skilled professionals at Pearl Drums."

Pearl's Innovative Features

Lug Design

Bridge style lugs and floor tom brackets provide maximum resonance with minimal shell contact. Pearl's revolutionary BRL lugs assure the ultimate in head seating and tuning integrity. The unique swivel function allows the tension rods to align perfectly into the lugs so there's no lateral pressure against the hoops, thus assuring maximum resonance and sustain.

**Floor Tom Leg Brackets
Air Suspension Rubber Tips**

Full height adjustment with our built in memory lock keeps floor tom positioning perfectly set. Our patented Air Suspension Rubber Tip allows your floor tom to rest on a cushion of air. These large rubber feet prevents premature sound decay from floor contact. Floor toms never has it so good.

OptiMount Suspension System

The OptiMount Suspension System provides tom mounting with zero shell contact for ultimate resonance. By attaching to the tension bolts via isolated rubber bushings the shell is allow to float which in turn allows it to sing to its fullest capabilities.

MasterCast Die-Cast Hoop

Our die cast hoops offer state-of-the-art head seating and tuning capabilities thanks to their structural strength and precision manufacturing technique. The MasterCast

Hoop system prevents binding and allows the shell to resonate to its absolute fullest potential.

Bass Drum Claw Hook

Our bass drum claws incorporate rubber hoop isolators for scratch prevention on lacquered hoops, provide evenly distributed clamping force for consistent tuning. The key bolts are recessed for snag-free fit in carrying cases and to eliminate accidental detuning.

Bass Drum Spur

Our telescoping spurs feature rubber or spike tips for maximum traction control. The high-grip rubber tip can be retracted to allow a recessed spike to be exposed for maximum "bite" on carpeted surfaces.

Stainless Steel Tension Bolts

Pearl's stainless steel tension rods are machined from a single piece of stainless steel to the most exacting tolerances in the industry. They feature super smooth and precise tensioning with absolutely no play. Each is matched with a precision-machined brass swivel nut for ultra-precise performance.

The Golden Ratio, also known as the Golden Section, Golden Mean, Golden Rectangle, and the Divine Proportion, has fascinated mathematicians since the time of the Pharaohs. It is a mathematical constant (1.61803) that is found repeatedly in nature and has been used by artisans for generations to create art and structures with pleasing proportions. Stradivarius applied the Golden Ratio to define the location of the "f-holes" and proportions of his masterwork violins. The exterior dimensions of the Parthenon are said to form a perfect Golden Rectangle. The proportions found in Leonardo da Vinci's "Last Supper" follow the Golden Ratio. Intrigued by this, our engineers asked if the Golden Ratio was applicable to drums

and more specifically to the location of the air vents. For every drum depth there's an upper and lower Golden Ratio location, and testing revealed that the upper location noticeably improves attack, which is perfect for snare drums, while the lower position improves low frequency response, which is ideal for toms and bass drums. Pearl's revolutionary new Golden Ratio air vents are so unique they're patent pending. Experience the sound of Golden Ratio air vents, centuries in the making, exclusively on Masterworks and Masters Premium, exclusively from Pearl.

Completely Custom, Totally Handmade, Pearl Drums

With no assembly line boundaries and no mass production compromises,
Masterworks drums truly represent all that is possible.

Each drum is a work of art, constructed by seamlessly blending the artisan qualities and wisdom of hand craftsmanship,
with the technology and precision of state of the art custom built machinery. There is no inventory.

Every drum in your kit is designed by you, and hand built to your exacting specifications, one drum at a time.

We've assembled an elite group of Pearl master craftsmen in order to manufacture the finest drums the world has ever known.

Masterworks drums are as individual as you are, and like no other you have heard or seen before.

Drummer's Dream Come True

Pearl's Masterworks Series represents the fruition of over 60 years of acoustic drum research and craftsmanship. When you choose Masterworks, you're selecting drums that epitomize exactly what you want in a set of drums. Why? Because you design them. From shell thickness and composition to exterior finish and hardware plating, Masterworks is the only completely custom drumset available. There's no inventory, no pre-fabricated shells sitting on a shelf. Every drum in your kit is designed by you and built to the most exacting tolerances by the world's finest master craftsmen using the industry's most advanced custom-built machinery. Completely custom. Totally handmade. It's a musician's dream come true. Whatever your musical style, Masterworks can build a kit to express every nuance of your individual style. With Masterworks, it's about choices. The choices begin with the selection of the

shell material that precisely suits your playing style. Maple is an excellent choice for general purpose applications due to its smooth, warm, well rounded tone, with equal amounts of hi-end attack and mid-range body, and an excellent low-end punch. Birch is known for its "naturally EQ'ed sound" that offers slightly boosted hi-end frequencies, a smooth, mellow mid-range and a deep low-end presence and is a great choice for any applications that requires extra presence and cut. African mahogany is the ideal choice when maximum warmth and low frequencies are a priority.

Shell Thickness Options

With Masterworks you can choose the thickness of your shells to precisely tailor the sound to your exact needs. Thin shell drums offer great resonance and maximum tone that can be most appreciated in near-field applications. Thick shells are extremely "efficient" and provide ultimate volume and projection. These drums are ideal for any application requiring high sound pressure levels with maximum cut. Medium thickness shells offer a very good compromise between volume and resonance and are ideal for general purpose applications. With Masterworks, each drum can be crafted with a different thickness to precisely achieve the sound you want...the choice is yours.

Thin shells drums offer great resonance and maximum tone that can be most appreciated in near-field situations.

Thin

Thin shell drums have become extremely popular in recent years as their sound offers the best "near field" or player's experience. Our 4 ply, 5mm shell enables relatively easy energy transfer from the heads to the shell, thus causing the shells to fully vibrate. This vibration imparts a very rich, warm "wood" tone to the overall sound that can be most appreciated close to the kit while it's played. This effect is also great for recording where miking techniques can capitalize on the warmth and natural tone of the instrument. Most manufacturers offer a thin shell hi-end drum series, and Pearl's Masters Premium MMP/BMP Series drums are a perfect representation. Our 4 ply, 5mm shell also features an extra 4 ply, 5mm reinforcement ring at both top and bottom to help strengthen the shell and add support at critical head contact points for stability.

Choosing the Wood for the Shell

Maple

Maple has been a favorite choice of drum manufacturers since the late 1700's. Its grain is a beautiful canvas for transparent finishing techniques and its tone is ideal for general purpose, all encompassing applications. Our North American Maple, like all of the woods used for Masterworks drums, is hand-selected to meet stringent requirements for proper density, age, and consistency of grain and color. Maple offers

a smooth, warm, well rounded tone, with equal amounts of hi-end attack and mid-range body, and an excellent low-end punch. Most drum manufacturers offer some form of 100% Maple drum today as it has become the standard of the industry for high end drum sets.

Birch

Birch drums have gained an almost cult following over the years which started around the 1970's. Their "naturally EQ'ed sound" offers the perfect alternative to the overall smoothness of Maple. Many professional players today prefer the sound of Birch to any other material in use for the manufacture of drums. Our prime Scandinavian Birch offers a slightly boosted hi-end cut, a smooth, mellow mid range and a deep low end presence. Many popular Birch shell

drums have found their way to recording studios where they are a favorite of both the player and engineer. Their sound translates equally for both live and recorded situations as Birch drums are a great choice for any application that requires extra presence and cut.

African Mahogany

Mahogany was the industry standard for drum shell manufacture for over fifty years and one listen will tell you why. Our supreme quality African Mahogany is extremely rich in low-end frequencies, with beautifully smooth mids and a slight roll-off in the higher register. Drums made from African Mahogany have warmth and body that sets them apart from all others. Few companies today offer this excellent wood for drum shells

simply because its porous exterior is extremely difficult to finish and it costs more than Maple. Without question, if your main requirements are "bottom" and punch, African Mahogany should be your wood of choice.

Features slightly boosted lows with smooth mid and high frequencies. Ideal for all around applications.

Composite Shell

The beauty of Masterworks is the ability to custom configure a kit down to the wood plies used for the shells. A composite shell, featuring more than one wood, is a great way to blend the characteristics offered by different materials. For instance, you may choose outer plies of Maple or Birch for their ease of finishing, beautiful grain and sound characteristics, and inner plies of African Mahogany to boost bass and low end punch. While

this is a very popular Masterworks composite, remember there is no wrong way to configure your shell and each drum in your kit can be different if you so choose. The only requirement is that plies must be specified in groups of 2, as in 2 outer plies of Maple plus 2 inner plies of African Mahogany, for a 4 ply shell.

Carbon Ply

If you desire something more futuristic, we offer the cutting edge of drums with Carbon Fiber. This ultra exotic hybrid features 6 plies of 5.4mm Maple sandwiched between an inner and outer ply of Carbon Fiber. These drums produce a sound that goes beyond description and must be experienced.

Medium

Medium thickness shells are ideal for general purpose applications and/or situations requiring more "horsepower." They offer a very good compromise between volume and resonance.

Medium thickness drums, as with our 6 ply, 7.5mm Masters MCX shells, have slightly greater stiffness and resist some of the energy transfer from the heads. With slightly less vibration, a trade-off is achieved allowing the sound to be slightly "cooler" than a thin shell drum, but with greater volume and projection. These drums represent a great choice for all around, general purpose applications, offering a warm, full bodied wood tone, with great attack, loudness and presence. Medium thickness shells may offer the best of both worlds providing the perfect compromise between resonance and volume.

Thick shells are extremely "efficient" and provide ultimate volume and projection. These drums are ideal for any application requiring high sound pressure levels with maximum cut.

Thick

Thicker shell drums are extremely "efficient" and allow most of the player's energy to be focused through the heads directly to the audience. Since the shell provides greater mass, less volume is lost through the shell in the form of resonance. They offer good tone and warmth but at reduced levels compared to their thinner shell counterparts. These drums are ideal for coliseum-type venues and other applications requiring high sound pressure levels and ultimate volume. Masterworks drums are available in both an 8 ply, 10mm thickness and a 10 ply, 12.5mm thickness. Snare drums made in these thicknesses rival metal snare drums in intensity and projection, providing a great cannon-like crack with extreme volume.

Artisan Finishes

Complete your Masterworks masterpiece with your choice of our peerless Masterworks Artisan finishes or stunning super high gloss lacquer finishes. Artisan exotic wood veneers offer gorgeous one-of-a-kind looks to set your kit apart from all others.

Highly figured woods are available including Bubinga, Tamo, Eucalyptus, Flame Maple

and Burl Mahogany. Our super high gloss lacquer finishes are hand-applied over a week's time with multiple coats for a "mile-deep" look that you'll treasure and others will envy.

Bearing Edge Options

Other than the shell material, nothing influences your drum's overall response and tonal spectrum more than the bearing edge. That's why Masterworks gives you three bearing edges from which to choose from.

45 Degrees
Pearl's legendary 45 degree bearing edge delivers the perfect blend of attack and warmth.

Rounded 45
The rounded 45 bearing edge provides maximum head-to-shell contact as a result of greater head-to-shell contact.

Fully Rounded
The fully rounded bearing edge provides maximum head-to-shell contact for a greatest boost in mid to low range frequencies.

Hardware Color

All Masterworks Series drums are available in your choice of Chrome, Gold, or Black Chrome plated drum hardware finishes to make your kit as unique as you are.

Reference

A Complete Set Of Individually Engineered, Incredible Sounding Drums

The Reference Mission

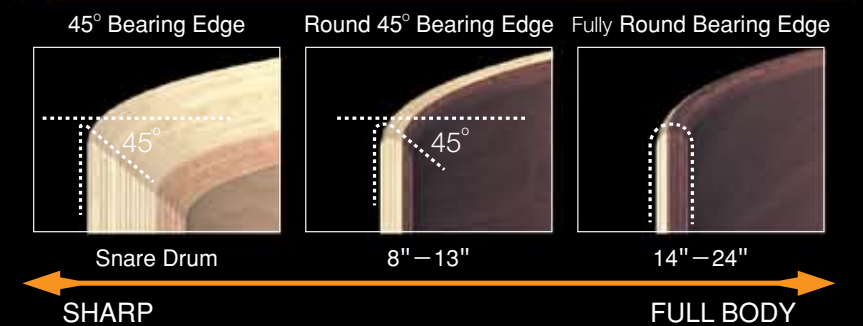

To fully understand these drums you must accept that the desired tonal characteristics of a rack tom are completely different than that of a bass drum, and to make these drums with the same composition would result in a compromise. This is the mission behind Reference Series: To create a perfect sounding drum set where every drum is optimally engineered to produce the best sound possible within its respective tonal range and diameter...drum by drum by drum. Forget what you think you know about drums and take a closer look at Pearl's Reference Recipe and the synergy of its three task-specific components.

Reference **Recipe**

Optimized Shell Composition

Optimized Bearing Edge

Optimized Thickness

With Reference Series, it's not about compromise, it's about every drum in your kit performing at its optimal capacity.

The Legendary Sound of Pearl

Masters Premium

For more than two decades, the legendary Pearl Masters sound has been heard on countless recordings and in the world's top recording studios. The Masters sound is synonymous with legendary drummers like Jeff Porcaro, Dennis Chambers and many others. The Pearl Masters Premium Series offers the discerning player precision, beauty, innovation and options. This special order series is available in your choice of 4 ply or 6 ply 100% Maple or 100% Birch shells, and features upgraded lowmass aluminum OptiMounts, Masterworks/Reference bass drum spurs, bass drum claws, floor tom legs and leg brackets. Masters Premium snare drums feature Pearl's premium swivel tube lugs that assure perfect tension rod to lug alignment. All Masters Premium drums feature Pearl's innovative Golden Ratio air vents for improved low end response on toms and bass drums and improved attack on snare drums. You can choose from a total of 34 finishes including 26 super high gloss lacquer finishes and 8 premium coverings. All shells are constructed using Pearl's exclusive SST Superior Shell Technology manufacturing process.

Masters Premium MMP / BMP 4ply

Pearl's 4 ply shells with 4 ply reinforcement hoops produce a "vintage" sound with deep, rich tone and incredible sensitivity.

VISION

VMX | VBX | VSX & VX |
100% Maple | 100% Birch | Birch Ply

Next Level Perfection

Pearl originally created the now legendary Export Series to deliver quality drums at an affordable price.

Export spent the next 20 years as the number one selling drumset in the world. The lessons learned from this extraordinary success led

Pearl to create a new series of drums that far exceeds the standard set by Export.

Welcome to Pearl's Vision Series, the highest quality drums in their class, period.

The Vision of 6/8

Some companies in the intermediate category have chosen to compromise quality and features in exchange for a low price. Pearl will never make that sacrifice. The Vision Series represents Pearl's commitment to quality by including more professional features while maintaining an affordable price. Vision drumsets feature two very different shell thicknesses: 6 plies on rack toms and 8 plies on bass drums and floor toms, for incredibly balanced sound. Lower frequencies require greater energy, provided by a projection of the higher frequencies produced by smaller drums. Vision's unique 6/8 technology makes this possible. Vision's exclusive two-ply heads are easier to tune, and deliver full, powerful sound right out of the box. With the exception of the Vision Maple shell pack, Vision drumsets feature Pearl's M.I.P.A. (Music Industry Press Association) award-winning 900 series hardware. From the Birch Ply shell of VX to the 100% Maple shell of VMX, Vision is the next level of perfection for the drummer who can tell the difference.

Vision's Professional Features

- Pearl's Exclusive SST Superior Shell Technology
- Infinitely Adjustable "UNI-LOCK" system tom holders (VX comes with TH-88 Gear Tilter Tom Holders)
- Professional I.S.S Tom Mounting System
- Bridge Type Lugs, Tom holder Base and Leg Brackets (VMX comes with BB-3 tom holder base, LB-40 leg brackets.)
- Air Suspension Floor Tom Feet
- ProTone Perimeter EQ Bass Drum Heads
- VMX, VBX, VSX comes with ProTone 2 ply heads.

Professional 900 Series Hardware

- (VSX, VBX, VX)
- Infinitely Adjustable "UNI-LOCK" system cymbal tilter
 - Die-Cast Joint w/Stop Lock
 - Rattle-less "SureStrut" tripod base
- (VMX is available in shell pack only. 900 Series Hardware not included.)

Vision

Mike Mangini
World's Fastest Drummer

"My relationship with Pearl is dynamic in nature, meaning that both the products and my expression improve and evolve over time. If any type of relationship is to be successful, then it must adapt to its environment and change over time. Pearl does this."

FORUM FZ

Forum Ready-Set-Go! is the all-in-one concept that gets you started in style and ready to rock right out of the box. With new upgrades, Forum is better than ever, and is the ideal choice for the beginning drummer. New features in 2008 include I.S.S. tom mounts, newly designed low-mass lugs, improved cymbals, with a new 16" crash, and the addition of slick black drum hardware, standard on two of the five flashy Forum finishes. Forum comes with rugged double-braced hardware, a heavy duty throne, a pair of Vic Firth drumsticks, and a free DVD with all the set-up, tuning and instructional pointers you'll need to get started. There's no better way to start your drumming career than with Pearl Forum Ready-Set-Go!

Reference

Reference Series wood snare drums feature 20 ply shells, with 6 inner plies of Birch and 14 outer plies of Maple, making it one of the loudest wood snare drums available. The 6 inner plies of Birch provides cut and attack while the outer 14 plies of Maple provide warmth and solid midrange punch. The shell's 45 degree bearing edge provides minimum head dampening for intense crack and attack. Reference Series metal snare drums redefine the standard for metal snare drums, just as our wood Reference Series snare

drums did for wood snare drums. Both feature Reference swivel lugs for perfect tension rod alignment, MasterCast die cast hoops, SR-1000 Glide Lock strainer with patented locking lever that prevents the throw-off from disengaging no matter how hard you play, and UltraSound SN-1420D Graduated Tension Snares for extended dynamic range and sensitivity.

Wood Shell

Reference Snare Drums offer a level of performance unattainable before now. 6 inner plies of Birch unite with 14 outer plies of Maple for a staggering 20 ply shell. The 45 degree bearing edge brings all 20 plies to the party in a highly focused sweet spot. This projects the volume that you would expect from such a thick shell without losing sensitivity or articulation. The state-of-the-art in modern hardware adorns these snares to maximize every nuance of the shell construction. Available in 3 sizes to perfectly suit your personal level of performance.

Brass & Cast Steel Shell

Reference Series offers the most advanced Metal snare drums in the World. The winning combination of extreme sensitivity and powerful volume makes these snare drums a must-have instrument for the working drummer. Whether you choose the "wet and ringy" tone of 3 mm Brass or the brightly assertive 2.5 mm Cast Steel, these drums will satisfy the most demanding of players.

Masters

Masters Premium & Masters MCX

Pearl's Masters Premium Series snare drums feature revolutionary swivel lugs that assure perfect tension rod to lug alignment for optimal head seating and precision tuning. MasterCast die-cast hoops, stainless steel tension rods, innovative "Golden Ratio" air vents for increased attack, and a "vertical pull" SR-017 strainer all come standard on these spectacular snare drums. Masters Premium snare drums are available in a total of 31 finishes including 26 super high gloss lacquer finishes and 8 premium Delmar covered finishes, 3 of which are glass glitter finishes with real glass flakes for incredible radiance.

Matt McDonough
Mudvayne

"Pearl is always at the front of the pack with new and innovative snare drums."

SensiTone Elite

SensiTone Elite snare drums offer unparalleled options for the discriminating drummer of today. This series provides a virtual cauldron of advanced metallurgy with a choice of 1mm Steel, 1.2mm Stainless Steel, 1.5mm Brass, 1.2mm Phosphor Bronze and 1.2mm seamless Aluminum. Each of these instruments brings a distinctive sound inherent to its individual aural alchemy. Choosing one will be tough, may we suggest collecting the whole series?

UltraCast

UltraCast has turned into a modern gothic novel. An experiment gone awry. A monster in the truest sense. We set out to make a precision milled cast Aluminum shell that would project energy and be heard over the chaos of a live band. UltraCast has done that beyond our wildest dreams.

When you hear players like Morgan Rose, Sam Loeffler (Chevelle), and Kris Myers (Umphrey's McGee), you're hearing the power of UltraCast. Available in 2 sizes, only one attitude.

Free Floating System

Pearl Free Floating Snares feature a patented system with no hardware attached to the shells. With nothing to encumber its ringing clarity the shells are free to vibrate with unbridled response and truest articulation. Pearl Free Floating System snare drums are available in several sizes and 4 different shell materials: Brass, Copper, Steel and 6 ply premium Maple. All Free Floaters feature our SR-1000F Glide-Lock Strainer with locking snare tension knob and patented locking throwoff lever that will not loosen no matter how hard you play.

Signature Series

Imagine being able to capture the elusive sound of your drumming idol. Pearl's extensive line of Signature Series Snares gives you an opportunity to own a snare developed with input from the pros. We offer snares from some of the world's greatest players, and they're all available at your Pearl Dealer.

Jimmy DeGrasso
Jimmy has laid the foundation for such hard rock acts as Alice Cooper, Ozzy Osbourne, Suicidal Tendencies and most notably, the multi-platinum Megadeth. Jimmy's Signature Snare Drum is a 14"x 5.5" hammered brass snare drum with gold-plated hardware, ideal for loud, amplified music. This striking drum is sure to catch the eyes and ears of all drummers.

JD1455
Size (Dia. X Depth) : 14" X 5.5"
Shell : 1mm Beaded, Hammered Brass
Hoops : SuperHoop II / Gold Plated (SHG1410 / 1410)
Lugs : CL-55G
Rods : 10
Tension Rods : SST-5052 Stainless Steel Tension Rod
Strainer : SR-017G
Snares : S-1420D Ultra-Sound "D" Type

Ian Paice
Deep Purple's legendary drummer designed this snare drum to have classic looks and classic sound with modern technology. The 6.5" steel shell will give you a big rock sound, and the locking nuts will help your drum to "stay tuned all night".

IP1465
Size (Dia. X Depth) : 14" X 6.5"
Shell : Beaded Sheet Steel
Hoops : SuperHoop II (SH1410 / 1410S)
Lugs : TB-65
Rods : 10
Tension Rods : SST-5042 Stainless Steel Tension Rod
Strainer : SR-017
Snares : S-022N

Mike Mangini
Mike is recognized as one of the fastest drummers alive and actually set the world record for a single stroke roll with 1,247 strokes in 60 seconds. He has recorded and toured with such acts as Steve Vai, Extreme and Annihilator. Mike serves as a full time professor at Berklee, so it made perfect sense for his Signature Snare to be based on the ancient architectural phenomenon that is the Golden Ratio. This snare drum is a modern marvel!

MM1062
Size (Dia. X Depth) : 10" X 6.2"
Shell : 6 even ply Birch
Hoops : SuperHoop II (SH1006 / 1006S) w/OptiMount (OPTA-0665)
Lugs : STL-65
Rods : 6
Tension Rods : SST-5047 Stainless Steel Tension Rod
Strainer : SR-017
Snares : S-032N

Tico Torres
After decades of international success with Bon Jovi, Tico Torres worked with the Pearl design team and chose a cast aluminium shell to achieve a sound that has the warmth of a wood drum with the bite of a metal drum.

TR1465
Size (Dia. X Depth) : 14" X 6.5"
Shell : 3mm Cast Aluminium w / Reinforcement
Hoops : MasterCast (DCS1410 / DC1410S)
Lugs : FT-65
Rods : 10
Tension Rods : SST-5042 Stainless Steel Tension Rod
Strainer : SR-010
Snares : S-025

Morgan Rose
When rocking with his band Sevendust, Morgan needs his drum to be loud, powerful and full of attitude, so his mean 14"x5" Steel drum has all the projection to cut through huge speaker stacks and subwoofers. This snare features a nasty green metallic finish with glow-in-the-dark "Alien" graphic that can't be missed. The Morgan Rose Signature Snare Drum is a force to be reckoned with.

MR1450
Size (Dia. X Depth) : 14" X 5"
Shell : 1 mm Steel
Hoops : SuperHoop II (SH1410B / 1410S)
Lugs : CL-55
Rods : 10
Tension Rods : SST-5047 Stainless Steel Tension Rod
Strainer : SR-017
Snares : SN-1442I Ultra-Sound "I" Type, 42 Strands

Eric Singer
Eric has been rocking crowds around the world with mega band Kiss, and needed a drum that could match the intensity of their incredible live shows. His signature drum has an extra thick 10 ply Maple shell for impressive projection and outstanding power.

ES1465
Size (Dia. X Depth) : 14" X 6.5"
Shell : 10 Ply Maple
Air Vents : 3
Hoops : MasterCast (DCS1410 / DC1410S)
Lugs : CL-65
Rods : 10
Tension Rods : SST-5047 Stainless Steel Tension Rod
Strainer : SR-017
Snares : S-022N
Color : #160 Silver Sparkle

Joey Jordison
Joey Jordison has a reputation as one of the most influential, respected and successful drummers in the world today. Playing stadiums worldwide with Slipknot, Joey needed a snare drum with a higher pitch, monster bite, and this 13"x6.5" 1mm Steel shell Power Piccolo delivers the rage and power you'd expect from Joey.

JJ1365
Size (Dia. X Depth) : 13" X 6.5"
Shell : Steel/Black Finish
Hoops : SuperHoop II / Black Finish (SH1308B / 1308S)
Lugs : CL-65B
Rods : 8
Tension Rods : SST-5047 Stainless Steel Tension Rod
Strainer : SR-017B
Snares : SN-029N

Dennis Chambers
As one of the world's most respected International session musicians and clinicians, Dennis' signature snare drum has outstanding sound and tonal dynamics. This top specification drum includes a wide range of features to help you achieve the perfect sound.

DC1465
Size (Dia. X Depth) : 14" X 6.5"
Shell : 4 Ply Maple w/4 ply Maple Reinforcement Rings
Hoops : MasterCast (DCS1410 / DC1410S)
Lugs : CL-100
Rods : 10
Tension Rods : SST-5047 Stainless Steel Tension Rod
Strainer : 4-Way Adjustable / SR-020 on both sides
Snares : S-030N
Color : #136 Opal White

Virgil Donati
Virgil has pushed back the barriers of playing drums with his innovative use of the instrument, complex rhythms, creative phrasing and extreme speed, and naturally he has taken great care to design a unique snare drum. Using a 8 ply blended shell, rounded bearing edges and a totally flat snare bed, Virgil's signature snare drum is as state-of-the-art as his playing.

VG1450
Size (Dia. X Depth) : 14" X 5"
Shell : 8 Ply (Outer: 4 ply Maple / Inner: 4 Ply Birch)
Hoops : MasterCast (DC1410 / DC1410S)
Lugs : TB-50
Rods : 10
Tension Rods : SST-5042 Stainless Steel Tension Rod
Strainer : SR-017
Snares : SN-022N
Color : #188 Smoke Fade

Omar Hakim
Having played the drums for Sting, Madonna and David Bowie, to name but a few, Omar was looking for a unique sound in designing his signature snare drum. The 13" x 5" shell has a power piccolo sound while the Mahogany helps to produce the perfect blend of sonic power, projection and tonal color.

OH1350
Size (Dia. X Depth) : 13" X 5"
Shell : 6 Ply African Mahogany
Hoops : SuperHoop II (SH1308B / 1308S)
Lugs : CL-55
Rods : 8
Tension Rods : SST-5047 Stainless Steel Tension Rod
Strainer : SR-015
Snares : SN-029N
Color : #140 Natural Mahogany

Chad Smith
Explosive, versatile and funky...these words not only describe Chad's playing with the Red Hot Chili Peppers, but also describe the sound of his awesome signature snare drum. One of the best selling drums in Pearl's arsenal, the Chad Smith snare drum will help bring your groove to the next level.

CS1450
Size (Dia. X Depth) : 14" X 5"
Shell : Steel, Black Nickel Plated
Hoops : SuperHoop II (SH1410B / 1410S)
Lugs : CL-55
Rods : 10
Tension Rods : SST-5047 Stainless Steel Tension Rod
Strainer : SR-015
Snares : SN-022

Ultra-Sound Snare Wires US.PAT.7202405

Pearl's UltraSound snares feature patented Graduated Tension wires with strategically positioned looser and tighter wires. The looser wires respond to the lightest touch while the tighter wires maintain head contact during the loudest playing. Combined, Graduated Tension wires extend the dynamic range of UltraSound snares far beyond that of standard snares. The SN-1420C features "C" shaped end plates with looser tension wires in the center for outstanding tracking and response, and is ideal for rock music and metal snare drums. The SN-1420D features "D" shaped end plates with tighter tension wires in the center for superb sensitivity, and is ideal for classical music and wood snare drums. The SN-1420I has even tension snare wires for those who want traditional snare dynamics, but with the benefits of the UltraSound's non-plated rust proof snare wires and ultra-thin, low mass 0.6mm Phosphor Bronze end plates for ultra quick response. The end plates have three mounting options: tunnels and holes for cord mounting, and slots for straps.

SR-1000 Glide-Lock Strainer US.PAT.7220905/7301087

Pearl's SR-1000 Glide-Lock strainer addresses two age-old strainer problems that have plagued drummers for years: the throw-off lever flipping off and the tension knob loosening while playing. The SR-1000's patented throw-off lever features a Positive Lock system that locks in the ON position and completely removes the possibility of the snares turning off no matter how hard you play. Using patented low-friction technology the lever has a smooth gliding action to raise and lower the snares with ultra quiet precision. The patent pending tension knob also locks and both the throw-off and butt plate can be removed from the shell with the snares attached to allow quick and easy bottom head changes.

THE FASTEST, SMOOTHEST, MOST VERSATILE PEDAL IN THE WORLD.

Heavenly Smooth.

The Direct Link's spherical bearings and a combination of custom settings create the smoothest pedal action possible.

Wickedly Fast.

Micro polished Ninja bearings along with self-aligning spherical bearings and the zero latency Z-link give the Demon Drive incredible speed.

Ninja Bearings
Designed for skateboarding these bearings feature micro-polished steel balls for amazing low friction.

Showing Longboard Setup

Tailor Made To Your Foot

With seemingly endless adjustments, the Demon Drive can be tuned to your specific taste.

DUO-DECK LONGBOARD
Converts quickly from shortboard to long board via 4 screws under footplate for your choice of feel.

BEATER STROKE ADJUSTMENT
A choice of 2 positions for a Finesse or Power. Simply loosen the clamshell to change position.

DIRECT LINK ADJUSTMENT
The 2 position direct link adjusts for a choice of light or heavy feel.

CLICK LOCK SPRING TENSION
The Click Lock prevents the tension knob from loosening. Simply flip up for adjustment.

ADJUSTABLE TRACTION PLATE
The Aluminum Traction Dots are fully adjustable to vary the amount of slip or grip for your playing.

FOOTBOARD HEIGHT ADJUSTMENT
Loosen and rotate to desired footboard height. Rotation is clearly indexed for ease of setup.

ZERO LATENCY U-JOINTS
Zero latency Z-Link U-joints prevent backlash and promote optimal feedback for incredible speed and control.

Z LINK DRIVE SHAFT
Adjustable machined Aluminum for perfect positioning and flex-free energy transference for precise feel.

CONTROL CORE BEATERS
The standard Control Core Felt and the optional wood beater feature anti-vibration elastomer core.

CARRY CASE
The Demondrive comes standard with a carry case to protect your pedal from the wear and tear of travel.

PEARL DRUM PEDALS

POWERSHIFTER ELIMINATOR DRUM PEDALS P-2000 SERIES

CHAIN DRIVE

Pearl's sprocket-less double chain drive provides super smooth action with powerful and precise feel. Since there are no teeth, the "grinding" noise common with most chain drive pedals is eliminated making the Eliminator perfect for studio work.

P-2000C

BELT DRIVE

Our Belt Drive provides a very comfortable, natural feel similar to a direct drive system. We use an extremely strong, highly durable drive belt, instead of a normal rubber strap, to provide maximum durability, strength, and stretch resistance.

PowerShifter ELIMINATOR

P-2000 SERIES

INTERCHANGEABLE CAM SYSTEM

US.PAT.6172291

Our exclusive Cam System provides six (included 4 + optional 2) interchangeable color coded cams allowing you to quickly change the power and feel of the pedal to suit your individual playing needs. Changing from cam to cam is as simple as pushing the release button and snapping another cam in place.

OPTION CAMS

- BLACK** LINEAR ACTION CAM
- WHITE** OVERSIZED LINEAR CAM
- BLUE** PROGRESSIVE CAM
- RED** RADICAL PROGRESSIVE CAM
- PURPLE** AGGRESSIVE ACTION CAM
- YELLOW** INVERSE ACTION CAM

This is Pearl's original "perfect circle" Cam design. It offers superior power and a very natural, perfectly balanced action and smooth feel.

The White Cam is a slightly over sized "perfect circle" Cam. It offers a very natural, smooth action, with great power and balance, with a slightly lighter pedal feel.

This is the very popular "off-center" axis type cam design. It offers a light feel in the beginning that accelerates with speed and power upon impact.

The Red Cam features an extreme "off-center" axis design. The action is similar to the Blue Cam but with a lighter feel at the beginning of the stroke.

The Purple cam provides aggressive acceleration for huge power and response, second only to the Red cam.

The Yellow cam provides a slight inverse action. When maximum power is required, this is the cam of choice.

POWERSHIFTER

US.PAT.5574237

Our revolutionary PowerShifter function provides 3 positions to fine tune the power and feel of the pedal. By moving the footboard forward or back you change the chain or belt drive angle, thus changing the leverage to create a light, normal or strong feel.

INDEPENDENT TRACTION GRIPS

Power Shifter Eliminator's Traction Plate footboard insert allows you to remove and reconfigure each individual traction grip to suit your exact playing requirements. From maximum grip to full slide, and every option in between, the choice is yours. The Traction Plate also reverses to focus the slide or grip surfaces to either the toe or heel of the pedal.

ZERO PLAY HINGE

Our stainless steel hinge is manufactured with incredibly precise tolerances to prevent play between the footboard and heel yet provides maximum freedom of motion for blazing speed. (US.PAT.7179978)

FOOTBOARD ANGLE ADJUSTMENT

Footboard angle is easily adjusted and completely independent from beater angle allowing you to further fine tune the feel and action of your pedal.

ROLLER CAM HOOP CLAMP

Our Roller Cam Hoop Clamp multiplies each turn of the adjustment knob to speed the process of attaching the pedal to the hoop. It fits an extremely wide range of hoop thicknesses and offers the smoothest, most secure grip possible. (US.PAT.5726370)

WIDE TENSION-RANGE SPRING

Our counter spring has been designed to perfectly complement the weight and balance of the footboard and beater assembly. It also offers a much wider range of adjustability allowing you to fine tune the pedal tension to suit your playing style.

UNI-PRESSURE SPRING CLAMP

Our Uni-Pressure Spring Clamp System grips a full 360 degrees and allows infinite beater angle adjustments. Featuring a unique Floating Spring Pendulum design that is perfectly centered on the clamp, this system offers full precision bearing movement for unmatched smoothness.

QUADBEATER

Our QuadBeater provides four different beater surfaces, each with its own distinct sound. You can choose from 2 hard plastic surfaces or 2 felt surfaces and either pinpoint or line contact with the head.

QUADBEATER

(US.PAT.5610351)

DUOBEAT

(US.PAT.5610351)

BEATER WEIGHT

BW-100 (US.PAT.7122730)

The BW-100 Beater Weight features a main body (10.4 gram) and two removable add-on weights: Black (7.2 grams) and Silver (5.8 grams) that can be added or subtracted to achieve perfect feel and power.

PEDAL STABILIZER

HI-HAT STANDS

POSILINK TWIN CAM DRIVE SYSTEM w/ INTERCHANGEABLE CAMS
(US.PAT.6399866)

Our exclusive PosiLink drive system features twin double chain driven cams one of which accepts your choice of 6 interchangeable cam profiles (4 included and 2 optional) so you can customize the response from mild to wild. If you want a traditional direct drive feel, use one of the two round cam profiles. But if you dare, try the four eccentric cam profiles with varying degrees of offset for accelerated feel that you can't get from any other hi-hat on the planet!

No other part of your kit takes the punishment that your Hi-hat takes. It has to be fast, responsive and strong to keep the groove moving. Pearl offers a wide range of Hi-hats to complement your playing style from our light-weight, easy to carry H-72W to our state-of-the-art Eliminator, that like our Eliminator pedals, features our patented interchangeable cam system for customized feel to allow the pedal to become an extension of yourself.

POWERSHIFTER

PowerShifter allows the player to quickly shift the footboard to one of three playing positions. This changes the angle of the pull chain which in turn changes the overall feel of the hi-hat reaction.

TRACTION PLATE FOOTBOARD

Like all Eliminators, the pedal has removable traction grip inserts that can be adjusted or removed to tailor the amount of grip or slip. The plate is even reversible for more choices.

VARISET FOOTBOARD ANGLE ADJUSTMENT

The VariSet cam is infinitely adjustable to allow micro-fine adjustment of the footboard angle for optimum comfort and speed. Footboard angle can be further adjusted by moving the chain to three positions on the pedal cam.

1. SUPERGRIP CLUTCH [SGC-300P] (PAT.PEND)

The H-2000 features our SuperGrip Clutch. This clutch system uses a larger surface area with 360 degrees of grip that provides vice like clamping force for super grip.

2. HI-HAT CUP (US.PAT.7078606)

Our patented seat cup features a hinged platform for outstanding stability and consistent hi-hat sound.

3. PRECISION SPRING TENSION DIAL

Our precision Spring Tension Dial features a positive click stop design for precise control over hi-hat tension.

4. SWIVELING LEGS

Our swivelling legs allow perfect placement by themselves or with multi-pedal set-ups. (*except H-72W)

5. CONVERTIBLE SPIKE / RUBBER TIPS (PAT.PEND)

The extra large non-slip rubber feet have a push button activated spike that pops out for non-slip grip on carpet or rubber surface. A second button returns it instantly to its recessed position.

6. NEW FOOTBOARD DOCKING STATION

The H-2000 now features a patent pending footboard attachment system and docking station for improved stability and security during transport. The footboard is attached via a tongue and groove-type locking system that holds the stand rigidly at a perfect 90 degree angle for maximum stability. The integrated docking station clamps the footboard safely and securely during transport for maximum protection of the chain and cam system.

7. STANDARD CLUTCH (CL-300)

Our CL-300 clutch used on H-1000 series hi-hats features our Triple-Lock gripper system for zero slippage.

8. FOOTBOARD ANGLE ADJUSTMENT

The H-1000's exclusive threaded foot board connector allows the footboard to be infinitely adjustable for maximum speed and comfort.

9. ROLLER PULLEY SYSTEM (US.PAT.5018426)

The roller system uses a pulley to provide incredible cymbal force with minimal pedal exertion.

One Snare Stand

ALL FIT SNARE STAND S-2000

ALL FIT SNARE ARMS

The all-fit snare arms found on our S-2000 allows individual adjustment of the snare arms to fit drums from 10" to 16". This unique feature also allows the offset placement of your drum for total positioning control. The patented (US.PAT.6710236) Air Suspension rubber tips securely cradle your prized snares without applying unnecessary pressure to the shell. This offers security for your snare without compromising resonance and sustain.

GYROLOCK TILTING SYSTEM

The GyroLock tilter allows complete tilt control over your snare angle. The Ultra-Grip wingnuts make adjustments quick and sure.

PUSH BUTTON CONVERTIBLE RUBBER TIP

The S-2000 features convertible rubber/spike tipped feet that allow your stand to adapt to any playing surface. A push of a button activates spike tips that provide maximum bite on carpeted surfaces. A second button returns them to their recessed position. (PAT.PEND)

TILTING SYSTEM

The S-900 features our Uni-Lock infinitely adjustable tilter for pinpoint drum placement.

SBA-1 SNARE BASKET ADAPTER

The SBA-1 attaches quickly to the tips of the S-800W snare stand to accept a broader range of snares including Sopranos and Effects Snares to 10". Rubber inserts prevent the snare from slipping. Sold in packs of 3.

DRUM THRONES

If you can't sit comfortably you can't play your best. That's why Pearl thrones, like our Roadster Series, feature ergonomic accents that promote good posture and comfort during extended playing. Innovative features such as the reversible backrest, and two-zone cushion on the D-2000BR throne and the shock absorber cushion on the D-1000SP that minimizes shock to your spine to fend off fatigue, are just some of the comfort features you'll find on Pearl thrones.

Our ergonomic seat provides two unique seating options. Firm padding with a smooth channel in the center can be used with the channel facing forward or backward to suit your personal preference. (D-2000BR / D-2000)

The quick release height adjustment clamp features a fine tuner for perfect height settings. (D-2000BR / D-2000 / D-1000 / D-1000S / D-1000C)

The built-in shock absorber minimizes shock to your spine to maximize comfort. (D-1000SP)

The spring tension is quickly and easily adjustable for your preferred level of comfort. (D-1000SP)

The height collar features vice-like clamping action for slip-proof dependability. (D-75)

CYMBAL STANDS

Pearl cymbal and boom stands are the choice of the working drummer. Solid and strong with thick chrome finishes that ensure a long life and dependable service, Pearl Advanced Hardware Systems stands are available with a wide range of options to fit your every need. From the studio to the stage, you can count on Pearl hardware.

WINGLOC (US.PAT. 6884015)

Our WingLoc quick release wing nut makes old fashioned wing nuts a bleak memory with its snap on, snap off ease of use. Whereas traditional wing nuts have to be manually unscrewed or screwed tighter, the WingLoc just slides onto a cymbal holder and snaps together to hold the cymbal firmly in a matter of seconds.

Our patented Reversible Seat Cup (US. PAT. 6940006) can be set to Float like a traditional seat cup or it can be reversed and Locked for 100% rattle-free performance for recording applications.

GYROLOCK & UNI-LOCK
GyroLock allows a full 360 degree range of motion for the fastest, easiest, and most precise setting of cymbals and toms. See it on our award-winning and revolutionary BC-2000 boom stand. Spin it. Lock it. Play it!
Uni-Lock tilters provide infinite positioning options and lock securely with a twist of our ergonomic UltraGrip wing bolts.

SETTING

The BC-2000 offers so many diverse mounting possibilities. With a built-in knurled post, it's perfect for adding cowbells or percussion effects. Add on some additional TL-2000 GyroLock Tilters and mount multiple cymbals on the same boom tilter.

DETACHABLE COUNTER WEIGHT

The detachable counterweight ensures perfect balance and stability.

DIE-CAST JOINT

Our die cast pipe joints provide unrelenting grip for solid and dependable positioning while the hidden nylon bushings inside the tubes prevent metal-to-metal contact for rattle free and quiet performance.

SURESTRUT & STOPLOCK

The BC-2000 also features our double strut legs to prevent lateral movement and positive stop memory locks for repeatable height settings.

OVERSIZED NON-SLIP RUBBER FEET

The over-sized non-slip rubber feet are the foundation of the BC-2000's stability. They provide sure footing and absorb unwanted overtones.

BC-100S CONVERTIBLE FLAT BASE STAND
Pearl's new BC-100S Convertible Flat Base Stand is a lightweight boom cymbal stand that features an exclusive low profile flush-base design that is convertible into a traditional tripod base. The BC-100S features a gear tilter and is specially designed to be lightweight and highly portable.

Fits B-800W, C-800W, BC-800W, C-70W, B-70W, CH-80

DRUM RACKS

Pearl's **ICON Series** are the gold standard for drum racks. Its patented square aluminum tubing allows clamps to hold without turning or sliding for ultimate stability and each section is independently height adjustable. Our clamps feature high-strength die cast construction and hinged quick release jaws for fast set up and tear down.

ICON racks are available with straight or curved tubes in front and three-sided versions.

Expansion kits are also available with straight and curved tubes for customized set ups.

TOM STANDS TOM HOLDERS

Our Advanced Hardware Systems **TH-2000** and **TH-1000** Tom holders provide positioning capabilities never before available. Large non-slip rubber feet and No rattle tubes make our tom stands the studio kings.

Signature Series

Marc Quiñones Signature Timbales Set

ETE-1415MQ

Designed in conjunction with one of today's premier percussionists, Marc's timbale set consists of standard 14 and 15 inch drums fitted with Remo Clear Ambassador heads, and packed with a ton of innovative features that only Pearl can deliver. The Polished Steel Shells have two inverse beads that not only add strength, but also produce a cutting "cascara" sound (side of the shell) not hindered normally by outward facing beads. To further the "cascara" striking area, this set features a 5-Lug Design that is proportioned perfectly for leaving maximum shell space and less lug interference. Tuning is easier than any other timbales on the market, utilizing a top tuning lug design with included socket wrench. This exclusive Pearl design, cuts the time changing heads in half - No more nuts and washers falling on the floor! The cowbell post features a Sympathetic Sound Dampening sleeve so your cowbells and blocks do not ring through the stand, and the whole unit can be mounted in seconds using a one wing-nut design. A double braced tilting stand, and our top-selling PBL-30 Clave Block are included.

Q-Popper Timbale Snare w/ Mount

ETE-1205MQ

The Marc Quiñones Signature Q-Popper 12"x5" Timbale Snare is perfect for accenting a traditional Salsa group, as well as an auxiliary add-on to your drum set. With the snares on it "pops" with all the characteristics of a small metal snare drum, yet throw the snares off (via the SR-018 style strainer) and you have an awesome timbale to spark Caribbean flavor to your sound. The Q-Popper matches Marc's Signature steel timbales and comes standard with the NEW PPS-36 Angled Post Adaptor to conveniently mount it off any cymbal or hi-hat stand.

PBF-300DXBA 7 & 8.5" Bongos

Bobby demands the best, so he designed his Signature Fiberglass Congas and Bongos to exceed all existing standards, right down to the smallest detail. For example, the seams are invisible, thus giving his congas the look of natural wood. The congas are 28" tall to fit the traditional seated player, and the wider base adds projection and stability. A new rim design on both congas and bongos adds extra comfort while complimenting the fitted Remo Fibreskyn3 heads.

Jesus Diaz Signature Cuban Cajons

PCJ-110JD Segundo Cajon (11")
PCJ-120JD Tumbador Cajon (12")
PCJ-100JD Quinto Cajon (10")

Pearl's Folkloric Cuban Cajons are inspired by master Afro-Cuban percussionist, Jesus Diaz, and feature the classic Cuban wedge shape for deep resonating bass tones and cutting slaps. Available in 10", 11", and 12" sizes and pitched in thirds, they can be played in traditional settings or used as an alternative to congas. The newest addition to the line is the Tri-Tone Cajon. The 11" wooden playing surface is designed like a traditional Cuban cajon, but with the inclusion of our exclusive PSA-10 Snare Rake allows you the option of adding a snare sound. Turn the drum on its side, and you have the option of playing traditional bata rhythms with a cool yet convincing alternative to an ltolele since the bottom is also a playing surface. The Tri-Tone Cajon is so versatile, you will find applications for it in all genres of music.

Horacio "El Negro" Hernandez Signature Cowbells

Designed by Horacio Hernandez, this series of five cowbells are pitched in accordance to "El Negro's" strictest of standards. Intended for Drumkit and Percussion players, the unique features include two playing surfaces: flat on one side, and curved on the other. The tone is the same, but the distinctive bi-shaped design will give the player the option of striking the bell directly facing in or the side (like a timbale player). The two-position cowbell bracket will ensure that the wing-nuts will not get in the way when stacking multiple bells and blocks on one post. This makes it much easier to adjust the bells from virtually any position. Another exclusive feature is found on the smallest bell, the HH1 Bella two rubber gaskets separate the mount from the body of the bell offering maximum tone and resonance that is usually "choked" and "dry" with other cowbells of this size. Finished in beautifully plated copper, this professional line of cowbells sound and look like no other on the market.

HH-1 BELLA Hi-pitch Cha-Cha bell
HH-2 ClaBELL Foot-Clave bell
HH-3 ChaBELLa Low-pitch Cha-Cha bell

Elite Mahogany Series
 Pearl's Elite Mahogany Series of congas and bongos feature our exclusive "Spline-Joint" technology that uses splines to mechanically secure the staves both horizontally and vertically to greatly increase the surface area of the joints for strength that others can't match. The shells feature an inner layer of hard Para Wood for improved volume and increased mid and low frequencies and an outer layer of Mahogany for incredible looks. Another feature is our Contour Crown Rims with a lower profile for greater comfort on your hands and our exclusive Self-Aligning Washer System (S.A.W.S.) that isolate the tension hooks from the inner walls of the lugs for greater tuning ease. The Pearl Elite Mahogany, where state-of-the-art construction creates state-of-the-art sound.

Travel Cajon
 PTCJ-1265 NEW! 12" Travel Cajon

Travel Conga

The Travel Congas are available in three standard head diameters: 11", 11.75" and 12.5" yet only 3.5" deep. They feature wood shells and stave construction (identical to our full-size congas) and the Remo FiberSkyn 3 synthetic tone head for outstanding tone that is unaffected by changes in temperature or humidity. Five precision Allen bolts provide accurate and easy tuning via the included foam-handle Allen wrench. Pearl's Travel Conga stand is designed specifically with two things in mind: rock solid stability, and lightening fast set-ups and pack-ups. The stand includes a "Y" bracket that attaches to the bottom of your Travel Conga and mounts to the stand centered directly under the drum for maximum stability. The Travel Conga stand comes with a carrying bag that includes a pocket for the optional PPS-50TC Bridge that connects two stands together to minimize creeping while performing.

Travel Cajon

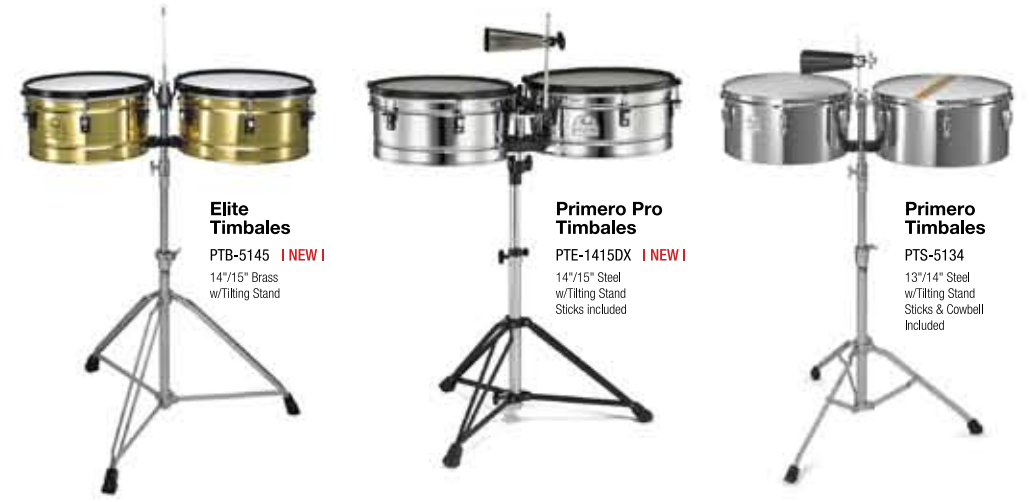

The newest compliment to the M.I.P.A. Award-Winning Travel Conga is Pearl's new Travel Cajon. This portable Cajon is packed with "full size" features and sound that, like the Travel Conga, will fool most ears into believing it is the real thing. The 12" wood playing surface resonates the 6-1/2" shell with a solid bottom and sound port that is large enough to manually adjust our exclusive Snare Rake system. A simple twist of the thumbscrew gives you the option of snares "on" or "off". The Travel Cajon can be mounted comfortably on your lap (secured by the included Velcro strap), or on a snare stand in a seated or standing position. Finished in Gloss Black Pearl's Travel Cajon is portable, versatile, and contagiously fun to play.

Practice Conga PPC-120 Practice Conga w/Video
 The perfect learning tool for the on-the-go percussion student or the seasoned pro warming up backstage. It features a Velcro strap to secure it to your lap and includes a video hosted by Glen Caruba to teach you the basics of hand percussion. Practice anywhere, anytime.

Primero Bongo Attachment PB-700BHS
 If you use a double conga stand, the PB-700BHS is the simplest way to add bongos to your conga setup. The PB-700BHS features full height and "tilt" adjustment, fits virtually any brand of bongos, and attaches securely to the mounting brackets on our PC-200W and PC-950TW double conga stands.

Snare Drum Hand Adapter PSA-10
 The Hand Drum Snare Adapter, PSA-10 (or Snare Rake) is great for adding spice to your Djembe and Conga sound. Fits to most hand drums in the market today, it adds a snare sound effect so easily and quickly.

Conga Shell Saver NEW! CSR-60
 Pearl's new Conga Shell Savers are specially designed to prevent the nicks and scratches that can occur during play. Sold in packs of 6, the Conga Shell Savers quickly and easily slide onto the existing conga lug, and are an inexpensive way to protect your conga instruments.

Timbales

Pearl's new Primero Pro Steel timbales are a budget conscious timbale set packed with professional features. The heavy-duty double braced tilting stand securely supports the 14 & 15-inch steel shells that are 7 inches deep for added projection and greater cascara surface area. The cowbell mount is based off our PT-900 Timbale stand making set-up and teardown possibly in seconds. Tuning wrench and sticks are included.

Djembes

Djembes are a traditional African instrument that offer a wide variety of sounds and are perfect for drum circles. The Professional Elite Series is available in Oak (12.5" diameter) and Fiberglass (12.5" and 14" diameter). All feature our Contour Crowns for comfortable playing and authentic Goat skin heads for deep lows and crisps highs. Our Primero Djembe is perfect for the beginning percussionist with its durable Fiberglass construction and compact 9.5" size. The 10" X 19" Fiberglass Rope Tuned Djembe features an exclusive exotic wood finish called Carubinga. The goatskin head offers a real feel and warmer tone that delivers an astonishingly large sound for a smaller djembe. Our NEW PC-800S Djembe stand is fully height adjustable and with the tilting feature, your Djembe is locked into place at the perfect angle. The single braced stand and Fiberglass djembe body makes this package amazingly lightweight.

Cajons

In conjunction with L.A. session percussionist Pete Korpela, Pearl's new Jingle Cajon offers four different sound possibilities in one package. The fiberglass body adds superior strength, and the super responsive snare system offers sensitivity unmatched by other brands. Simply twist open the Brazilian Platinella-style jingles and a new world of sonic options open up, as you instantly sound like two percussionists playing simultaneously. Open up the Stainless Steel tambourine jingles for a whole other jingle option, or combine the two to sound like an entire percussion section. Beautifully finished in our exclusive Carubinga exotic wood finish, Pearl's Jingle Cajon will surely open your eyes and ears to an arsenal of sound never thought possible from a single Cajon. The Primero Box Cajon is constructed from Asiatic Pine and is finished in Gypsy Brown matte lacquer, while our Elite Box Cajon is constructed of a harder Para Wood stained in Amaranth Red. Both feature fully adjustable snares that can be played "on" for Spanish Flamenco-style or "off" for Peruvian-style playing. The front plate is designed for maximum bass and super-sensitive snare response.

Concert Percussion

Pearl is proud to offer Concert Percussion instruments that are attractively priced for school ensembles, yet engineered with the professional percussionist in mind. Pearl's High-Density Steel Concert Triangles, PET-100 (10"), PET-80 (8"), and PET-60 (6"), offer beautiful clarity with no unwanted overtones. Triangle accessories include the PTC-10 basic triangle clip and the revolutionary PTC-300 Trio Triangle Holder that can accommodate up to three triangles ranging from 6" to 10". Our staggered Double Row 10" Concert Tambourine (PETM-20) have thin stainless steel jingles in a hardwood frame and natural goat skin head. Our concert woodblocks (PCWB-10, PCWB-20, PCWB-30) are made of blended hardwoods and feature a raised spine in the center for easy striking with a mallet or stick. Our Stix-Free Triangle holder has a brass beater underneath two curved felt pads which strike the mounted triangle horizontally enabling you to play intricate syncopated patterns, and is fully adjustable to hold 6" to 10" triangles.

Taiko

All of Pearl's Taiko are made from staved oak which are beautifully finished in a matte natural stain and produces the rich warmth of wood without the expensive price tag of a traditional carved shell. The insides of the shells are shaped using a method called "Hado-Carving" with special reinforcement rings which are placed to break up the unwanted overtones producing a balanced sonic reflection within the drums. But the sound starts on the outside, with premium cow hide exclusively chosen for Pearl Taiko drums. Pearl's Bachi are from a domestic hardwood in Thailand known as Acacia and offered in three different diameters to suit the size of both the player and Taiko. You will want to protect your investment of these beautifully crafted instruments, so Pearl offers soft padded carrying cases for the larger Miya Taiko.

Clave Block w/Holder

CBS-100 Gatling Cabasa

PWR-40 Shakelets

We offer an ever expanding line of effects from around the world to add flavor and color to your sound with bold improvements over the traditional. The Synthetic Fiber Claves produce a cutting clave sound, and are virtually indestructible. The Metal Guiro provides a unique metal sound and is perfect for Merengue rhythms. The Natural Gourd Guiro has two playing sides for different sound effects. Coated with fiberglass gel in the interior, it has projection and volume, and the rubber ring gives strength to the shell, making this Guiro the last you'll ever purchase. Our Clave Blocks are neon color-coded synthetic blocks designed with our Chamber Density Variation Technology. This allows consistent shaping of each block, while varying each block's pitch by a third. Our Gatling Cabasa enables you to play tight rhythmic patterns by a turn of the rotator arm. The Shakelets feature Pearl's exclusive Brazilian-style platinellas, called "Ganzinellas". With Shakelets on the wrist endless possibilities are created. Clap your hands, shake them in the air or play them holding a drumstick. They are just plain fun. We have two new tambourines available called the Ultra Grip Tambourine with Jingle Control. The ski-pole, like ergonomic handle, is positioned near the tambourine's center of gravity for comfortable and effortless playing, and the Jingle Control Discs allow the jingles to be selectively muted to control the volume of your tambourine and complement your playing style. Like our popular PTM-10GH (Brass Jingle) and PTM-10SH (Stainless Steel Jingle) Tambourines each Ultra Grip Tambourine is equipped with Pearl's QuickMount holder that allows the tambourine to go from mounted to hand-held with a flick of your wrist. The new 36 Bar Aluminum Chromatic windchimes features self-dampening parallel swinging chimes for controlled chime sound. A soft roll-up carrying case is included that doubles as a towel that can be draped over a (horizontal) music stand to act as a trap table. The case includes a storage compartment for the optional PWH-20 Windchime Holder.

Brazilian Percussion

Authentic Brazilian Sound

Pearl's line of Brazilian Percussion brings modern refinements and Pearl quality to the traditional Samba musician. Our Repinique line with 10" and 12" Aluminum shells feature etched heads, shoulder strap, and low rims for superior playing comfort. Our super lightweight Cuica features an 8" Goat skin head and comes equipped with a carrying strap and a specially designed sponge. Two models of Pandeiros and a Pandanza with multi function effects and a traditional Tamborim round out the new line. All are offered in the traditional Brazilian colors of bright Blue, Yellow and Green for dynamic looks that will surely get you noticed where ever you play.

The lightweight wood shell Surdos allow for hours of comfortable play when worn over the shoulder with the provided strap. They are available in 18" x 22" and 22" x 22" sizes (diameter x depth) and include two-ply tunable heads with an outer ply of synthetic leather for accentuated low-end frequencies. Our patent-pending Leg/Bass Drum Adaptor Kit (PBS30BD) allows your Surdo to be played vertically like a floor tom or horizontally with a pedal like a bass drum. Pearl's new Caixa features a 12" x 4" wood shell, drum key tunable textured heads, and SR-018 style throw-off. It can be played traditionally around the shoulder with the provided strap, or attached to a stand as an auxiliary snare to your drum kit.

Folkloric Percussion

This line of congas and bongos features a traditional look with modern innovation. Thicker South American style natural skins and a fiberglass gel coat on the interior seals provide the sound desired by today's players, and that of the classic Cuban sound. The Cata is a bamboo instrument played with sticks. Our Bamboo Claves produce a dry, "airy" tone that is lower in pitch than our "Chin-Chan" Hardwood Claves. The Achere is a single shaker with a handle used for time-keeping, while the Guataca, with scalloped edges for scraping, gives great metallic effects.

Percussion Stands and Brackets

The PC-3000TW stand from Pearl is the lightest and most compact double conga stand on the market today. It holds full size professional congas as securely as most stands double its weight and mass. Set-up in seconds because there are no wingnuts needed to mount your congas. The base of the drums rest on adjustable stabilizer legs and gravity does the rest! With an included carrying bag the PC-3000TW stand has all the features you can ask for in a double conga stand: sturdy, lightweight, and extremely portable. The PC-2000 Conga Kick Stand is a one-size-fits-all stand packed full of user-friendly features. Designed to accommodate the standing percussionist, the PC-2000 features extendable legs and a contemporary frame designed to perfectly unite two, three, or four stands together.

Bass Drum Hoop Protectors

- HPP-2** Metal Hoop Protector for Wood BD Hoops
- NP-01** Hoop Protector for Metal BD Hoops
- NP-347/2** Non-Slip Hoop Protector for Wood BD Hoops (pair)

Ultra-Sound Snares

Pearl's Ultra-Sound snares feature patented Graduated Tension wires for extended dynamic range from ultra soft to ultra loud. Ultra-thin, low mass end plates assure ultra quick response. The end plates feature three mounting options: tunnels or holes for cord mounting and slots for straps. US.PAT.7202405

- SN-1320C** 20 strands for 13", C-type, w/straps & cords
- SN-1320D** 20 strands for 13", D-type, w/straps & cords
