the beat goes on pearl

Everyday, more and more people start playing Pearl. Professionals who can't afford to miss the best beat. Beginners who can't afford to make a mistake buying their first set of drums. Day after day, as soon as they play it, even the old pros change their old habits and switch to Pearl.

Pearl's got the greatest array of drum sounds to choose from. Traditional all-wood drums give you the time-tested performance that Pearl's famous for. The inside layer of the 9-ply wood shell is sealed solid with a revolutionary new space-age chemical. It dries to form a smooth, extra hard surface that projects the finest full-bodied beat.

Pearl's revolutionary fiberglass-lined wood drums give you that good wood sound plus the all-new sound of fiberglass. The 9-ply wood shell is lined with a hard layer of rich resonant fiberglass. You get the best of both worlds.

And if you want today's most exciting new sounds, Pearl's all-fiberglass is super-solid for a sound no other drum can beat. You get more sound with less effort. And fiberglass is super-sensitive too, so you can get more different sounds from just one drum than you might expect from a whole set. Pearl's even got transparent drums to give you the greatest stage presence.

Every Pearl Drum is supported by the best hardware. It's heavy-duty and heavily chrome plated. While you drum at your hardest pace, each setting keeps its place. And the bass drum holds its ground through the heaviest beatings thanks to Pearl's unique spur design.

Whatever sound you're after, you'll find it with Pearl... And while you're looking, you'll probably discover a lot of new sounds you never heard before. But, don't just listen to us. Listen to all the pros that are playing Pearl Drums... Ed Shaughnessy, Jake Hanna, Cozy Cole, Paul Humphrey, John Guerin, Art Blakey, and a list that would look like Who's Who in Drums.

Ed Shaughnessy has to be on the right track for every kind of act when he plays on the Tonight Show. That's why he switched to Pearl Drums. The Shaughnessy Double 9 Set lets him drum up something different night after night... from a big band jazz sound to a soft and gentle ballad to hard and heavy rock.

The Double 9's two bass drums really hold their place no matter how hard you pound them. And they give you the biggest bass. Five separate tom toms deliver a full load of different tones so you can play the most melodic stretches. And the snare is so responsive, it gives you a real sensitive touch.

When Ed Shaughnessy has to travel from recording studio to studio, city to city, stage to stage, Pearl's perfect for the long haul. It takes every kind of beating. If you want to go all the way to be your best, follow Ed Shaughnessy's tracks. Play the Shaughnessy Double 9 Set by Pearl.

Seamless construction for durability

Drummers should be seen and heard. Now they can be both with Pearl's new Transparent Drum Set. These drums deliver all the superb sound that makes Pearl the professionals' choice, and they look better than ever. Pearl's Transparencies give you a lot more than meets the eye because they're seamless. Other transparent drum shells have to be wrapped and seamed. But, Pearl's Transparencies are one solid piece all the way around so they're extra strong.

Pearl's Transparencies sound cleaner and look clearer than other transparent drums because of their revolutionary new acoustic see-through material, "Sonaglass". The sound rebounds off its hard shell surface loud and crystal clear.

Pearl offers a full five piece see-through set. And of course, you can add on by doubling up on any drum—an extra bass, another tom tom, whatever you want. Don't get lost behind your drums anymore. Let Pearl's Transparencies put you up front and center. They're the best... sight unseen.

If you want to take off in new directions, get into Pearl's Concert Toms, and hear some real age sounds. They add on to any drum set instantly. And the eight different sizes give your drum set all the creative freedom you need, so you can cover every sound you're after. Even if your drum set sounds good now, it'll reach greater heights with Pearl's Concert Toms.

Choose just one pair, a four piece high or low pitch set or the complete eight piece set. Then, tune each drum to make up the exact string of sounds you want to deliver. You can play the most melodic lines. And you'll always be drumming up something different to keep the sound fast-paced and full of action.

Pearl's Concert Tom shells are all-fiberglass to give you the most sound power and the greatest strength. The smooth solid fiberglass lets you play as loud as you like with no sound distortion. Fiberglass is super-sensitive too, so you can really control all that power. And fiberglass withstands the toughest beatings and the roughest treatment during roadwork. If you feel held down with the same old sounds, Pearl's Concert Toms will really pick up your act.

When professional drummers want drum advice, they usually go to Bob Yeager, President of the Professional Drum Shop, Inc., Hollywood, California. Bob's whole life has been dedicated to drums. His professional drumming career spans over 30 years, playing for TV, radio, motion pictures, records and some of the biggest names in music.

Bob Yeager couldn't have chosen a more appropriate name for his "Professional Drum Shop" because that's who his customers usually are—professionals. They depend on Bob for advice.

He knows the needs of each individual artist for every style of music. That's why drum manufacturers throughout the world have tried to enlist Bob as an adviser. But, since no one drum line could meet all the needs of every drummer, Bob could never commit his services to just one company—until he discovered Pearl Drums.

Bob Yeager is now the full time adviser to Pearl Drums. Why did he choose Pearl? In Bob's own words, "Pearl has put it all together. I have never seen finer quality drums and accessories."

John Guerin, Art Blakey, Buddy Harmon, Ralph Humphreys, Fred Pierce—get the picture? People who play the best are playing Pearl. They've all found Pearl their personal favorite because Pearl gives them every sound they've always wanted—plus a lot more that no one ever dreamed of before.

Every Pearl Drum is sensitive to your most personal touch. They fit the mood of every song and every music style. That's why you'll find every kind of drummer—rock, jazz, big band, blues—playing just one kind of drum...Pearl.

Pearl has something special for everyone...especially you. That's why every day you'll hear more professionals playing Pearl. Pearl's best just goes on and on.
